Dilution Control Simplified

One Refill - Multiple Dispensing Options

HILLYARD
The Cleaning Resource[®]

Dedicated Wall Mount System

Dedicated four product dispensing. Fill bottles, buckets and scrubbers.

Compact Design

18" Wide x 26.25" Tall x 9" Deep

No Assembly, Out-of-the-box Installation

Simply attach the water supply hose and easily mount on wall with included hardware. Four screws is all it takes.

Locking Cabinet

The locking lid secures the refill. The lock system can be removed during installation.

Fill Bottles, Buckets & Scrubbers

Quickly fill bottles. Simply engage the locking, tethered hose to fill buckets and autoscrubbers.

Stay-In-Place Lid Design

When changing refills, the lid stays up and out of the way until it is closed.

Simple Push Button Operation

Clear Water Access

QR Code Product Information

Full Product Visibility

Easy to see product levels. Labeling on container refills allows flexibility to swap products if needed.

Reinforced Polypropylene Construction

Reinforced polypropylene provides excellent durability and chemical resistance.

Drip Tray with Drainage

6 Ft. Bucket Fill Hose

ASSE 1055B Certified

Dilution Control Simplified

At Hillyard, we understand professional cleaning. We know it's not a "one size fits all" approach. We also know standardization and consistency is critical to delivering clean, healthy buildings in a cost effective manner. That's why we have developed the Arsenal One Dilution Control System - one refill style dispensed through a dedicated wall mount dispenser or a portable, on-the-go dilution control dispenser. Same great formulas. Same color and number coding to simplify training. And, dispensing options designed for the way your staff works to help deliver the cleaning results your stakeholders demand.

Consistent Performance

- Arsenal One delivers the right amount of chemical every time ensuring the product performs as designed.
- Custodians using the "glug-glug" method can mix products either too strong or too weak. Too strong can ruin surfaces, create a safety hazard, and can substantially increase product cost. Too weak and the product does not perform and cleaning results suffer.

Cost Effective

- Highly concentrated products accurately diluted on site eliminates operator error and guesswork associated with manual "glug-glug" mixing.
- Dramatic cost and space savings when compared to "ready-to-use" products.

Safe and Simple to Use

- Color and number coding across all Arsenal systems simplifies training.
- Arsenal One is a sealed delivery system - minimizing direct contact with concentrated chemicals.

Color coding and number coding across all dispensing systems simplifies training.

Put The Hillyard Suprox[®] PEROXIDE Team To Work For You...

The cleaning power and safety of peroxide in one system!

- Put four peroxide formulas in one convenient dedicated Arsenal One wall mount dispenser.
- Perfectly matched dilution rates for each cleaning challenge.
- No. 32 Suprox - D, EPA Registered Disinfectant Cleaner
No. 37 Suprox - Heavy Duty
No. 38 Suprox - Multi-Purpose
No. 39 Suprox - Glass & Floor
- Green Seal[™] Certified
Nos. 37, 38, 39

High Performance Concentrate System

One refill style works in both wall mount and portable systems.

Simplify Cleaning Processes, Training, and Procurement

One refill style for all of your cleaning chemical needs.

- High capacity 2.5 liter refills strike the right balance for both dedicated wall mount and portable on-the-go dispensing.
- Sealed, tip-in-bottle dilution eliminates dispenser tip maintenance hassles and ensures accurate dilutions.
- Closed loop technology eliminates spills and direct contact with concentrated chemical.
- With over 107 years of experience formulating high-performance cleaning systems, you can be confident you're getting the best products to get the job done right!

Closed Loop Technology Delivers Uncompromising Safety & Performance

Anti-reversing Check Valve

Check valve maintains prime and prevents leakage.

Positive Sealing Valve

Valve with elastomer seal ensures complete closure until opened by engaging connecting cap.

One Way Vent

Provides necessary venting and eliminates leaking when container is inverted.

*An essential part of protecting
the health and safety
of your staff and
implementing
a sustainable
cleaning
program!*

Portable Dilution Control System

Dilution control on-the go! Simply connect to any water source.

Save Time

Eliminate back and forth trips to the custodial closet.

Fill and Foam

Dispenses the perfect dilution to fill bottles, buckets, scrubbers. Or, use the foaming attachment to apply foaming cleaners.

- Quick Disconnect
- Locking Trigger
- Bucket Clip
- Ergonomic Handle
- Optional Quick Connect Foaming Head
- Secure, Threaded Connection
- ASSE 1055B Certified, Built-In Backflow Prevention
