

Resultz™

Electrolytic Multi-Surface Cleaner

The Lawton Brothers' **ADVANTAGE Plus™** floor care system is a team of products designed to be an exceptionally effective alternative to the harsh products currently available. The **ADVANTAGE Plus** system's performance is unmatched by conventional products. It contains no butyls, no phosphates, no or negligible volatile organic compounds (VOCs), and is non-toxic, non-corrosive and biodegradable. The **ADVANTAGE Plus** floor care system consists of **Fast Break™** stripper, **Dura Flex™** and **Optima™** floor coatings, and **Resultz™** electrolytic cleaner/restorer.

Product Description

Lawton Brothers' **Resultz** is a revolutionary breakthrough in multi-surface cleaner technology. A unique power principle employed in its electrolytic technology enables **Resultz** to release even deeply embedded soil from surfaces electrodynamically without using any solvent additives, ammonia or hazardous levels of alkaline builders. **Resultz's** electrolytic technology cleans better, faster and with less effort than conventional cleaners. **Resultz** helps to reduce the surface's static buildup in the cleaning process, considerably extending the length of time the surface will remain clean. **Resultz** is an irreplaceable team member of the **ADVANTAGE Plus** floor care system.

Uses

Lawton Brothers' **Resultz** multi-surface cleaner is for daily cleaning and restoring of **Dura Flex** and **Optima** floor coatings. **Resultz** is designed to simplify your building maintenance operation by minimizing the number of chemical products you keep on hand. With **Resultz**, you can expect unsurpassed cleaning performance on glass, mirrors, stainless steel, painted surfaces, sinks, tubs, furniture, walls, floors, brass, carpets, and other water-washable surfaces. **Resultz** is a welcome addition to any 24-hour facility where time, odor and safety are high priorities such as hospitals, grocery stores, hotels/motels, manufacturing plants and nursing homes.

Directions

Resultz for Floor Care

Daily Maintenance:

For best results, dust-mop floor using a saran dust mop as often as possible. Place caution signs. Damp-mop or automop with **Resultz** cleaner/restorer diluted 1 ounce to 1 gallon of water. If you are using an autoscrubber for daily care, use the **Advantage Plus Daily Cleaning Pad**. Allow floor to dry thoroughly and burnish with a 1,000 to 3,000-rpm machine with an **Advantage Plus Burnish Pad**. For heavily soiled floors, dilute **Resultz** 2 ounces to 1 gallon of water.

Scrub and Recoat Procedure:

Dilute **Resultz Cleaner** 1 to 2 ounces per 1 gallon of water. Apply liberally to small area and scrub with a standard green scrub pad (for a light scrub) or a standard black strip pad (for a deep scrub) on a 175-rpm machine or autoscrubber. Vacuum up cleaning solution. Rinse with clean water and allow floor to dry thoroughly. Apply desired **Advantage Plus** floor coating.

Resultz for All-Purpose Cleaning

Cleans glass, mirrors, stainless steel, painted surfaces, walls, doors, sinks, tubs, tile, furniture, appliances, formica, and plastic, and removes spots from carpets. Test all surfaces for color fastness or damage prior to use.

| | |
|-----------------|----------------------|
| Normal Cleaning | 1 ounce to 1 gallon |
| Heavy Soil | 2 ounces to 1 gallon |
| Extreme Soil | 4 ounces to 1 gallon |

Procedure: Apply diluted **Resultz** to soil. Allow **Resultz** to penetrate and emulsify soil. Agitate with soft white scrub pad if necessary, and wipe dry.

OSHA-compliant, silk-screened RTU bottles are available for spray-and-wipe applications. Bottles are in English and Spanish.
