by HILLYARD 

an innovatively simple
skin care system

innovatively simple

One reliable, robust dispenser delivering foam, liquid or gel. It's your choice. Fresh new fragrances and bright attractive colors that will appeal to your senses. Add our Green Seal™ certified dye and fragrance free formulas and you have Affinity by Hillyard, the innovatively simple skin care system.

affinity™
by HILLYARD 

next generation skin care technology available today

Designed by Hillyard, the company delivering innovative cleaning and hygiene solutions for over 100 years. Our rich heritage includes designing systems dedicated to advancing the health and well-being of our customers. So much so, that our founder, Newton Hillyard, was awarded patents in the early 1930's for innovatively designed hand soap systems.* It's Mr. Hillyard's spirit of innovation that continues on today with Affinity by Hillyard.

sustainably engineered

- Space-saving dispenser design utilizes 25% less plastic by weight than other 1,250 mL dispensers without compromising reliability or durability.
- Crystal clear, easily recyclable, super thin, yet super strong bi-directionally molded PET bottles and thoughtfully designed pumps utilize up to 50% less plastic than other 1,250 mL refills.

unrelenting quality tested for trouble-free performance

Every part of our system is thoroughly tested. Formulas, pumps, bottles and dispensers. On-staff microbiologists constantly monitor quality while components are rigorously tested.

The pump is one of the most critical components of any soap system. It must be durable to withstand thousands of activations, yet simple enough to be part of a cost-effective, sealed, and disposable refill. The Affinity pump strikes the perfect balance.

EVERY Affinity pump goes through a series of automated tests. After a pump passes ALL of its tests, the data is recorded and a unique id number is stamped on its side.

Many pumps might be designed for trouble-free performance. Affinity pumps are designed AND tested for trouble-free performance. Every single one of them!

With over 100 years of experience, we stand behind our products. If you are not completely satisfied with Affinity, return the dispenser and unused refills for a full refund.

facility friendly

- High-capacity 1,250 mL refills last longer and require fewer changes.
- Fully ADA compliant, Affinity dispensers measure less than 4" deep and operate with less than 5 pounds of force.
- The large sight window makes it easy for staff to monitor refills.
- Sealed, hygienic refills reduce the risk of contamination associated with bulk soap dispensers.
- The Affinity dispenser can be set up as either push button access or key access for additional security.
- A thoughtful backplate design covers most dispenser footprints eliminating extra wall plates or time-consuming wall repairs.

Smart label technology. Affinity refills and installation instructions contain the symbol above. Shoot it with your smart phone and it instantly links you to a wealth of information on Affinity. Access specifications, msds, installation videos, hygiene posters and more. Go ahead, try it now.

a cost effective combination designed for financially savvy managers

It's a pretty simple concept. Design a high-quality system that performs well under the pressure of facility budgets. Take the view that building long-term relationships with customers outweighs the quick sale. And, the result is Affinity by Hillyard.

- Thick, rich formulas enriched with moisturizers and natural conditioners.
- Efficient pump system delivers the right amount of product minimizing waste. Foam 0.4 mL. Gel and liquid 1.0 mL.
- One dispensing system with your choice of refills simplifies purchasing and makes it easy to train staff.
