

InVent

InVent

Developed by
HYSCENT

Innovative Odor Control

Introducing a solution for those difficult areas: high ceilings, corridors and extra large spaces

Go green and keep it simple with the HYScent InVent, an odor control device that works with your existing HVAC airflow. Just clip the InVent into a ceiling vent in the space you'd like to fragrance to generate airflow through the unit. In minutes, notice the pleasing aroma of one of HYSO's original fragrances. The sleek and aesthetically appealing design creates a virtually seamless appearance.

InVent dimensions: L 7.25" (184mm), W 0.875" (23mm), H 1.75" (44mm)

HYScent fragrances are made from pure essential oils and are synergistically formulated with Odoraxe™, a Malodor Technology scientifically designed and tested to effectively counteract unpleasant odors.

ENVIRONMENTALLY FRIENDLY

- No batteries
- No aerosols, harmful solvents, or propellants
- Uses pure essential oils
- Unit is recyclable
- Fragrances contain no solvents

ODOR NEUTRALIZATION

- Attack and neutralize malodors with Odoraxe™

SAVE TIME

- Replace unit in seconds, with easy clip on feature

SIMPLE TO OPERATE

- No programming required

AESTHETICALLY SLEEK

- Virtually invisible when clipped onto air vent

HIGH FRAGRANCE OUTPUT

- Fill an area with fragrance in minutes

FLEXIBLE USE

- Can be clipped onto a wall mounted or floor vented AC
- Or be clipped behind venting panels for security

HYscent InVent: Product Specifications

DRY REFILL
NO MESS
No spills, no mess. Safe, simple, effective to use, and the InVent can be changed in seconds.

FRAGRANCES DIFFICULT SPACES
Just clip into a ceiling or wall vent and let the InVent go to work. In a matter of moments, the selected area will be suffused with pure essential oil based fragrances.

ECO HAPPY
HYscent refills are made from a proprietary blended polymer infused with pure essential oils. The absence of propellants and harmful solvents make HYscent refills the "eco" conscious solution for your fragrancing needs. Your customer will smell only pure essential oil and NOT smell propellants and harmful solvents that diminish the character and efficacy of the fragrance.

VERSATILE USE
The InVent uses the HVAC, wall mounted AC or any air source to deliver fragrance. Once clipped into the air flow source, the InVent will fill the space in a matter of moments. The strength and time of operation of the air flow will determine the size of the space fragranced as well as the longevity of the InVent. When finished, recycle your InVent and clip in a new one.
