

The Industry's Best

Can Liners Super Hexene Blend

FlexiSkins™ Plus

FEATURES

- Ultra-tough performance, thanks to premium Super Hexene resins.
- Maximum strength, puncture and tear resistance.
- Eco-friendly source reduction – Up to 25% less waste entering landfills.
- Leak-proof star seal.
- Wide range of sizes in Black, Clear, White and Gray.
- Suitable for heavy, irregular waste with gauges from 0.30 – 1.30 MIL.
- Coreless rolls for ease of use and storage.

FlexiSkins Plus can liners work in the widest variety of applications, including disposal of heavy or sharp objects, and wherever maximum puncture and tear resistance are needed. And because they are manufactured from thinner, stronger films for maximum source reduction, FlexiSkins Plus can liners are an environmentally responsible choice.

Gauge-for-gauge, FlexiSkins™ Plus can liners are the best in the industry. The result: better performance at lower cost. These can liners are also a smart choice for environmental source reduction. FlexiSkins Plus' thinner, stronger films reduce plastic waste by up to 25 percent with absolutely no sacrifice in performance.
