

Keep Your Facility Smelling Fresh & Clean

Air Fresheners Neutralize and Eliminate Odors the Environmentally Friendly Way

Pro-Link's Air Fresheners make sure your facility smells fresh and clean!

Eliminate the perception that a facility is dirty if there are any unpleasant smells by using our pleasantly scented air fresheners and smoke & odor eliminator.

These pump spray, ready to use products are easy to use – there's no dispenser to install or maintain, just spray and go!

Starting with an exquisite blend of pleasing perfumes, Pro-Link's air fresheners are made with environmentally preferred formulas and patented odor counteractant technology to create an air care solution that is effective and better for the environment. They are also safer for your employees and facility occupants, making them an ideal part of any green cleaning program.

Choose from 3 pleasant fragrances: Cotton Breeze, Lavender Fields and Crisp Apple, with a patented metal-free, water based odor counteractant that entraps airborne malodor molecules fast and effectively. For the toughest odors, such as smoke, pet odors, rancid or stale food and mildew odors, use Pro-Link's Smoke & Odor Eliminator, formulated with a patented molecular technology that destroys the odor molecules, quickly with a light floral scent.

Environmental Comparison		The Benefit with Pro-Link
Pro-Link's Air Fresheners	Traditional Air Fresheners	
<2% VOC	<18% VOC	<ul style="list-style-type: none"> An 89% reduction in VOCs Preserves indoor air quality Reduces smog production potential
