

Grout Brightener

- Second step in a complete grout cleaning system
- A concentrated, highly active formulation of synergistic acids that brighten and restore light colored grout to a “like new” appearance
- Pleasant mint scent

DIRECTIONS

Wear gloves and chemical resistant safety glasses when working with product.

Prior to applying Grout Brightener

- 1) On colored grout, pre-test in an inconspicuous area to ensure no discoloration occurs.
- 2) Do not allow Grout Brightener to come into contact with chrome or brass fixtures.
- 3) Use after a thorough cleaning and rinsing with Grout Cleaner.

Applying Grout Brightener

- 1) Mix 1 part Grout Brightener with 5 parts water in an acid pump sprayer.
- 2) Spray solution on grout and allow 5 minutes dwell time.
- 3) Scrub grout thoroughly with a low speed floor machine equipped with a Nylo-Grit type brush (must have uneven length bristles or a cylindrical brush scrub machine).
- 4) Pick up used solution and rinse with clean water.

Not for use on natural stone such as marble and lime stone.

Item #10048 – 1 Gallon

TECHNICAL DATA

Dilution	25 oz. per gallon
DOT	Corrosive
Odor.....	Wintergreen
pH.....	<1
Physical appearance	Colorless liquid

- Solutions for all your restroom maintenance needs
- Provides an efficient way to clean
- Superior quality
- Outstanding performance
